

NICU CUDDLER VOLUNTEER PROGRAM

As a Volunteer Cuddler, you will have a special place in the hearts of our youngest patients and their families by providing comfort for babies in the Neonatal Intensive Care Unit.

We are offering this unique experience for individuals between 25 and 70 years of age who are willing to volunteer for a minimum of one 2-hour shift per week for at least one year.

If you believe you can help make this program a great success, **please contact the Department of Volunteer and Student Services at (718) 283-3980.**

We are looking forward to a mutually rewarding experience!
